

Tamiya TT-01 Calsonic Skyline **58314 kit**

[Click Here For Video Clip](#)

Presenting the re-designed 2003 version of the Calsonic Skyline GT-R on a TT-01 chassis. Featuring a lower, more aerodynamic designed body based on changes made to the actual vehicle for the 2003 season, the distinctive Calsonic blue will be seen zipping around neighborhoods everywhere.

About the Calsonic Skyline GT-R

Packed with the latest Nissan racing technology, the Calsonic Skyline GT-R has been one of the top performing teams in the 2003 Japan GT Championship. Drivers B. Treluyer and Yuji Ide took the Calsonic Skyline to second place in round 2, followed by a brilliant victory in the heavy rain in round 4. Proving the wonderful performance of the GT-R in all weather conditions.
