

Maverick Strada MT RTR

[Click here for video clip](#)

Backed by industry leading support from HPI Racing UK, the new Maverick range of RC model cars and trucks is a great way to get into RC and get more for your money!

Designed and refined by long time RC enthusiasts, every Maverick model is easy to maintain, with a full range of spares available. Now you can have some serious fun with out spending serious money! Get more fun and value with Maverick from HPI UK!

You get real performance and great RTR functionality with every car and truck. Professionally designed moulded tub chassis provide durability and provide a stable and tough platform for a strong 4WD shaft drivetrain. Pre-built oil-filled shock absorbers and fully independent double wishbone suspension give you supreme confidence on all driving surfaces, and the installed electronics include powerful motors and long life battery packs for plenty of fun!
